

BAR TYPE - SPLITTER TROUGH - ALUMINUM - CSA1 250 mcm (600amp)

The 600AMP - 250MCM is ideal for a heavier gauge cable when a stock PAD type splitter will not work. The construction also allows for multiple feeds from a single utility connection.

- 10 or 12 Ga aluminum
- 250 MCM outgoing factory installed lugs
- Screw cover
- Stocked in Port Coquitlam
- CSA certified
- Custom sizes available
- Designed to meet current electrical CODE requirements

Options include:

- additional copper or aluminum
- powder coat
- hinge cover
- weatherproof

CAT No:	Enclosure Size				
	L	H	D	Wires Incoming	Wires Outgoing
BAR-A-600-48-3-35/25	48	15	7	2-350 incoming	6-250 outgoing
BAR-A-600-48-4-35/25	48	18	9.5	2-350 incoming	6-250 outgoing
BAR-A-600-48-3-50/25	48	15	7	2-500 incoming	6-250 outgoing
BAR-A-600-48-4-50/25	48	18	9.5	2-500 incoming	6-250 outgoing

Box grows but bars do not change in length.
 Custom sizes available - Bar size remains the same.
